

SHIPMENT CHARGES.

Because Adventure equipments are excessively different in size, volume and weight, it is quite impossible to propose the calculation of the shipment fees on line.

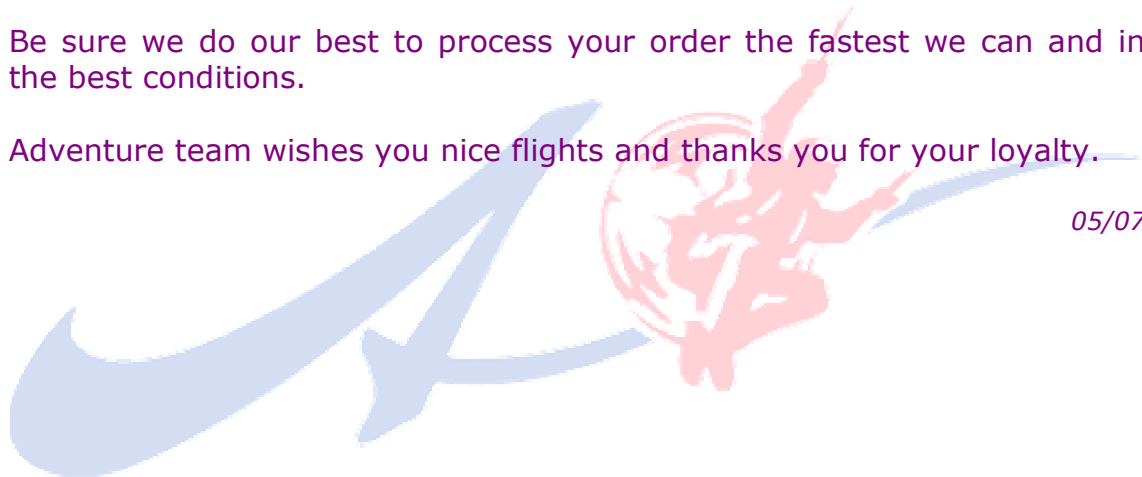

Reason why, in opposition to what is written in the box "mode de livraison" in the "récapitulatif de votre achat" page (bug of display), **we check each order and we add the right shipment fees** depending on the items you have ordered and the delivery address.

We shall consistently ask your agreement for each order (email), before validate and prepare it.

Your payment (debit of your card) shall include the shipment fees, after your agreement.

Be sure we do our best to process your order the fastest we can and in the best conditions.

Adventure team wishes you nice flights and thanks you for your loyalty.
